BIOGRAPHICAL PROFILE

James K. Dodson

BA.M MA., University of Oklahoma (Economics, Finance)

James K. Dodson Company was formed in 1970 to provide strategic information for mergers and acquisitions of companies engaged in oil and gas operations located offshore in the Gulf of Mexico.

In 1974, the **Dodson Data System** was created to digitally compile the leasehold of all tracts issued as oil and gas leases in the Federal OCS – US Gulf, beginning in 1947 through current date.

Today, the **Dodson Data System** includes:

- **Leasehold on more than 25,000 active and historical lease tracts**
- **Drilling data on 42,000 wells**
- **Production histories on 45,000 well intervals**
- **Status of 5,000 platform/well structures**
- **50,000 well completion records**
- **250,000 well test records**
- **Plans for Exploration and Development are summarized as filed for each lease since 1975**
- **All of the above data modules are linked to a GIS mapping interface**

Prior to organizing James K. Dodson Company, Mr. Dodson was affiliated for 18 years with Fortune 500 corporate finance and investment securities in Dallas, Texas.
